Coming ahead

Innovations

- Characterization of materials used in field-cast connections
- Precasting and wet-joint techniques for the construction of pipe rack structures in remote seismic zones
- A parametric investigation of the benefits of using 0.7 in. strands in precast, pretensioned girders: a parametric investigation
- Time-dependent prestress loss behavior of girders in Missouri Bridge A7957 compared with a U.S. data set of high-performance concrete bridge girders

Also

- Meet Phil Iverson
