## Tindall Petersburg names Francis plant manager

Tindall recently promoted McKenzie Francis to Plant Manager in Petersburg, Va.

Francis started at Tindall as a co-op during her sophomore year at University of Pittsburgh while she was studying industrial engineering. After three rotations as a co-op, Francis grew into a process engineer, plant industrial engineer, and then production manager.

Mckenzie Francis

uct data tracking tool to track data such as quality control, with the benefit of operating offline.

With technology solutions designed specifically for the needs of precast concrete manufacturers, Concrete Vision's web-based software is continually evolving to support clients' needs.

The integration will provide information flow in both directions. Concrete Vision clients that already use Idencia OneSource will now be able to feed all the job and piece information from Concrete Vision into OneSource to streamline quality control tracking and see progress within Concrete Vision.

An advantage of Idencia OneSource is that it is truly mobile. It allows users to track quality control and yarding information anywhere, even without internet access, and sync back to the cloud.
