Tindall promotes Lang to president, CEO

Tindall Corp. has promoted Cheryl Lang to president and CEO of the company effective July 1, 2024. In 2023, Lang became CEO and acting president and will continue to assume the duties of overseeing the day-to-day operations of the business.

Lang joined Tindall in 1990 as a controller. In 2006, she was named vice president and chief financial officer. She was promoted again in 2022 to the role of senior vice president of administration, where she was responsible for accounting and finance, human resources, safety, trucking, information technology, and marketing.

Lang graduated from East Tennessee State University in Johnson City with a degree in business and earned a master's degree in business administration from Clemson University in Clemson, S.C.

Jaskolka joins Wells as chief legal and safety officer

Wells has added Jennifer Jaskolka as its chief legal and safety officer. In this role, Jaskolka will be instrumental in ensuring Wells' operations are legally sound and safe by establishing a comprehensive strategic framework.

Before joining the Wells team, Jaskolka provided leadership for national companies, overseeing health and safety, diversity and inclusion, ethics, compliance, litigation, risk management and mitigation, and legal operations.

She holds a law degree from the University of Nebraska—Lincoln and, after identifying a passion midcareer for safety, obtained a bachelor's degree in occupational safety and health from Columbia Southern University in Orange Beach, Ala.

Tindall promotes Schweizer to Virginia general manager

Tindall Corp. has promoted Mark Schweizer to general manager of its Petersburg, Va., location. As general manager, he will oversee all division operations, including sales, project development, manufacturing, delivery, and installation, as well as the professional development of the Virginia team.

In 2006, Schweizer graduated from North Carolina State University in Raleigh with a bachelor's degree in industrial engineering. A year later, he joined Tindall. He began his career with the company as a process engineer, quickly transitioning to the project management side of the Virginia division.

- Pete Lien & Sons Inc. of Rapid City, S.Dak.: B1, C3

D. BRUCE POST

- >> Donald “Bruce” Post Jr., founder of Precast Systems Inc., died May 1, 2024. He was 78. Post earned his BS and MS in civil engineering from Rutgers University. There, he participated in the Reserve Officer Training Corps, graduating as a lieutenant in the Army Corps of Engineers and serving his country at the Pentagon and in Germany. After serving, he worked several engineering and construction firms before he established Precast Systems Inc. in 1981 in Allentown, N.J. The company constructed bridges, tunnels, parking garages, and mass transit systems across the Mid-Atlantic. In 2017, Post sold the company.

RICHARD WEHRLI

- >> Richard “Dick” Wehrli, a founder of Dukane Precast Inc., died July 27, 2024. He was 89. In 1956, Wehrli received a business degree from North Central College in Naperville, Ill. Then, in 1957, Wehrli enlisted in the Army National Guard of Illinois and was commissioned as a 2nd Lieutenant in 1958, where he served until 1962. Wehrli worked for a small ready-mixed concrete producer for three years before he and wife Judy Wehrli started Naperville Ready Mix in 1959 out of their garage. In 1964, he started a second venture, Naperville Excavating, to perform work for developers Harold and Jim Moser at the beginning of Naperville’s building boom. In the early 1970s, Wehrli started another company, Easy Street Construction, one of the first contractors to use automated equipment for concrete street and curb paving. He soon became one of the most recognized experts in the field application of this technology. In the late 1970s, Wehrli started Mustang Construction—a general contracting company—and Dukane Precast with other partners. Wehrli served as board chair for Naperville Ready Mix, Naperville Excavating, Mustang Construction, and Dukane Precast until his death.
